CERTIFICATE

OF AUTHORIZATION
no. #/ZP/2020

The company Mars a.s., based on the successful completion of training and demonstrated extensive practical experience, hereby certifies that

Sebastian DIETZE

is authorized to
pack, inspect, and maintain Mars Emergency Parachute Systems (ATL series).

Scope of authorization:

- Packing of parachutes
- Performing technical inspections and checkouts
- Carrying out maintenance procedures in accordance with applicable manufacturer documentation.

Types of parachutes:

This authorization applies to the following parachute types:
ATL-12, ATL-12 SL, ATL-88/90-1, ATL-88/90-S-1, ATL-88/92-S-1

Conditions of authorization:

All activities shall be performed in accordance with the current manufacturer documentation, manuals, service instructions, and applicable regulatory requirements and bulletins.

This authorization is valid for five (5) years from the date of issue. Renewal may be granted upon demonstration of continued practical experience through a log of packed parachutes, maintenance records, or a signed declaration of relevant practice, and may require additional training at the discretion of Mars a.s.

Date of issue: 17 March 2020

Validity: 5 years

Ing. Frantisek Horch
Chairman of the Board
